DOSAGE AND METHOD OF USE

• **Horse (500 kg):** 30 g per day (1 pouche)
• **Foal/pony:** 15 g per day (half pouche)
To be mixed into the ration.

ANALYTICAL CONSTITUENTS

Crude protein	8.0%
Crude fiber	1.0%
Crude fat	2.0%
Crude ash	6.5%
Sodium	0.65%
Ashes insoluble in HCl	3.0%

PACKAGING

Box of 30 pouches x 30 g

DESCRIPTION

A product to be used during periods of increased metabolic stress that cause nutrient imbalances and deficiencies, with consequent negative effects on the entire organism.
Thanks to its components, the administration exerts a **trophic and supportive action on the intestinal flora**, maintaining its functionality and supporting the muscular and energy system.
The presence of **lactoferrin** supports the immune system, while **fermented turmeric root** and **MELOFEED®** counteract the negative effects of free radicals thanks to their antioxidant properties.
