1 litre bottle
Shake well before use

DESCRIPTION

Concentrate of vitamin E, magnesium and lysine to keep muscle condition at peak levels.
Excell E is a concentrate in liquid form that combines vitamin E, selenium in organic form (for better absorption), magnesium and L-lysine for horses subjected to intense muscular exertion. Excell E is suitable for all types of horses and in particular for those engaged in intense physical activity (competitive and non-competitive) to ensure optimal conditions for the muscles.

THE PRODUCT CONTAINS

• **SEL-PLEX®** (selenium in organic form):
– Contributes to the normal functioning of the immune system
– Contributes to the normal functioning of the thyroid gland
– Contributes to cellular protection against oxidative stress
– Contributes to spermatogenesis
