

DATA SHEET

KERAHOOF

COMPOSITION

Sodium chloride • magnesium chloride

ADDITIVES/Kg

Trace elements: zinc (as zinc chelate of glycine hydrate (3b607)

9,000 mg, manganese (as manganese chelate of glycine

hydrate)(3b506) 2,925 mg, selenium (as sodium

selenite)(3b801) 25 mg. *Aminoacids:* DL-methionine technically

pure (3c301) 9,900 mg;

Vitamins: biotin (3a880) 1,500 mg, beta-carotene (3a160(a)) 1

mg;

Flavourings: glycine (2b17034) 16,800 mg

DOSAGE AND METHOD OF USE

Cavallo adulto (500 kg): 10 ml al giorno

Puledro/pony: 5 ml al giorno

Da somministrarsi miscelato alla razione di alimento.

In caso di aumentata richiesta o in caso di cavalli

particolarmente pesanti portare il dosaggio a 15 ml al giorno.

PACKAGING

1 litre bottle

DESCRIPTION

Kerahoof contains highly concentrated and bioavailable levels of **biotin**, as well as trace minerals such as **zinc**, **selenium**, **manganese** and important amino acids such as **methionine**, all of which together support strong, healthy hoof growth.

Although biotin is the most popular supplement when it comes to supporting hoof quality, Kerahoof stands out because it contains other nutrients, including methionine, selenium and zinc, that play a key role in hoof health.

In addition, the minerals in Kerahoof are exclusively in chelated form; this ensures better absorption of key elements for hoof nutrition, keeping hooves strong and healthy.
