

DATA SHEET

AMINOPOWER ADVANCED

COMPOSITION

Wheat meal • dehulled oats meal • algae Spirulina dried • linseed oil • fermented turmeric root • roasted barley • magnesium oxide • esterified sugars (Dextrophos) • carob flour • algae meal (*Haematococcus pluvialis*) • freeze-dried melon juice and pulp (Melofeed®) • palm oil • sucrose

ADDITIVES/Kg

Vitamins: vitamin E (3a700i) 70,000 IU, vitamin D3 (3a671) 80,000 IU, vitamin B1 (3a821) 1,100 mg, betaine HCl (3a925) 20,000 UI, vitamin B12 (3a835) 20 mg, vitamin B5 (3a841) 500 mg, vitamin B6 (3a831) 300 mg, niacinamide (3a315) 1,000 mg, vitamin B2 (3a825i) 360 mg, folic acid (3a316) 1,100 mg, L-carnitine L-tartrate (3a911) 25,000 mg;
Aminoacids: DL-methionine technically pure (3c301) 5,000 mg, L-lysine monohydrochloride, technically pure (3c322) 25,000 mg, L-leucine (3c382) 25,000 mg, L-isoleucine (3c381) 25,000, L-valine (3c370) 25,000 mg;
Trace elements: zinc (zinc chelate of glycine hydrate) (3b607) 1,900 mg, copper (copper chelate of the hydroxy analogue of methionine) (3b410i) 1,250 mg, manganese (manganese chelate of glycine hydrate) (3b506) 1,500 mg, selenised yeast *Saccharomyces cerevisiae* NCYC R397 inactivated (3b811) 10 mg;
Digestibility enhancer: *Saccharomyces cerevisiae* CNCM I-4407 (4b1702) 1 X 10¹¹ UFC/Kg.

DOSAGE AND METHOD OF USE

Adult horse (500 kg): 50 g daily.

Mix thoroughly with the daily feed ration.

PACKAGING

3 kg bucket

DESCRIPTION

Aminopower Advanced is a high-performance complementary feed specifically developed to support **sport horses** undergoing intensive training and competition. Its advanced formula provides a complete supply of highly bioavailable nutrients, helping to promote energy, endurance, and muscle development during both training and competitive performance.

The formulation combines carefully **balanced energy sources** designed to provide a sustained release of energy while maintaining focus and responsiveness. Its high content of essential **amino acids**, including **branched-chain amino acids** (BCAAs), is enriched with **L-carnitine** and **Spirulina**, ingredients that support energy metabolism while promoting muscle maintenance and recovery.

The nutritional profile is further enhanced with **vitamins D3, E**, and the **B-complex**, together with **highly bioavailable chelated minerals** selected to ensure optimal absorption and support normal physiological function during periods of intense physical exertion.

To help counteract exercise-induced oxidative stress, Aminopower Advanced contains an exclusive antioxidant complex featuring **natural astaxanthin** (*Haematococcus pluvialis*), **Promutase®** (freeze-dried melon pulp concentrate), and **vitamin E**. These ingredients help protect muscle cells against free radical damage, supporting improved performance efficiency and faster recovery.

The formulation is also enriched with **flaxseed oil**, a natural source of Omega-3 fatty acids, and **fermented turmeric**, nutrients that help support joint health and maintain normal joint function in horses subjected to intensive athletic activity.
