

DATA SHEET

EXCELL E

COMPOSITION

COMPOSITION/LITRE

Magnesium chloride 17% • Glycerin ADDITIVES/KG: Trace elements:
Selenium (organic derived from *Saccharomyces cerevisiae* CNCM I-3060 –
selenium inactivated yeast) (3b810) 23 mg. Amino acids and salts: L-Lysine
(monohydrochloride) (3c322) 89 720 mg. Vitamins and pro-vitamins:
Vitamin E/all-rac-alpha-tocopheryl acetate (3a700) 105 140 IU.

DOSAGE AND METHOD OF USE

• **Adult horse (500 kg):** 20 ml per day

• **Foal/pony:** 10 ml per day

To mix into the feed ration

PACKAGING

1 litre bottle

Shake well before use

DESCRIPTION

Concentrate of vitamin E, magnesium and lysine to keep muscle condition at peak levels.

Excell E is a concentrate in liquid form that combines vitamin E, selenium in organic form (for better absorption), magnesium and L-lysine for horses subjected to intense muscular exertion.

Excell E is suitable for all types of horses and in particular for those engaged in intense physical activity (competitive and non-competitive) to ensure optimal conditions for the muscles.

THE PRODUCT CONTAINS

- **SEL-PLEX®** (selenium in organic form):
 - Contributes to the normal functioning of the immune system
 - Contributes to the normal functioning of the thyroid gland
 - Contributes to cellular protection against oxidative stress
 - Contributes to spermatogenesis
