

DATA SHEET

FAST PRO

COMPOSITION

Dehulled oats meal • wheat • lignocellulose • yeasts inactivated • carob flour • yeast cell walls from *Saccharomyces cerevisiae* • toasted barley • co product of enzymes production from *Aspergillus oryzae* • bacterial biomass rich in protein from *Lactobacillaceae* • *Saccharomyces Boulardii* inactivated • yeast extract • calcium carbonate • bark of Ulmus • inulin from chicory • dextrose • sucrose

ADDITIVES/Kg

Flavourings: chestnut extract (*Castanea sativa*) 16 g; *Vitamins:* vitamin A (3a672a) 13,500 IU, vitamin D3 (3a671) 540 IU, vitamin E (3a700) 13.5 mg;

Trace elements: selenium (sodium selenite) (3b801) 0.027 mg;

Binders: sepiolite (E562) 22,6 g

DOSAGE AND METHOD OF USE

• **Horse (500 kg):** 60 g per day (2 scoops)

• **Foal/pony:** 30 g per day (1 scoop)

To be mixed into the feed ration

ANALYTICAL CONSTITUENTS

Moisture	12.0%
Crude protein	13.0%
Crude ash	7.0%
Crude fat	3.0%
Crude fiber	4.0%
Ash insoluble in HCl	2.5%
Sodium	0.1%

PACKAGING

2 kg bucket

Formulation: pellets

DESCRIPTION

Feed supplement specially formulated to protect the intestines and keep them in efficient working order.

The product contains:

- **Hydrolysed lignocellulose:** breaks down the oxidised free radicals which form during inflammatory processes
- **Toasted cereals, cell walls from *Saccharomyces cerevisiae*:** support for the mechanisms which neutralise the toxic substances produced by bacteria and/or absorbed from the outside
- **Inulin:** encourages the growth of intestinal bifidobacteria, especially those resident in the colon
- **Extract of chestnut and lignocellulose:** contribute to the stoppage of the flow of fluids from the tissues to the intestinal lumen as a consequence of inflammatory processes
- **High quality stabilised yeasts:** these defend the autochthonous intestinal microbe groups to enable them to maintain their specific epithelial territories
