• **Flex-1-One 7,5 cm**: box containing 12 bands
• **Flex-1-One 10 cm**: box containing 12 bands

DESCRIPTION

Cohesive bandage useful for the maintenance of bandages, post-operative dressings and tail dressings.
Its characteristics are:
• high resistance to rubbing
• is easily torn by hand without the need for scissors,
• controlled compression (not constrictive)
• adheres to itself without being sticky on the hair
• water- and sweat-proof
• provides support for tendons and ligaments, maintaining position even in particularly difficult conditions
