DATA SHEET

LACTANASE PRO

COMPOSITION

Sucrose • cornstarch pre-gelatinised • glucose syrup • lipoic acid • freeze-dried melon juice and pulp (Melofeed®) • palm oil
ADDITIVES/KG
Preservatives: potassium sorbate (1k202) 3000 mg

DOSAGE AND METHOD OF USE

Horse (500 kg)
• *Preparation:* 1 syringe the day before the competition and 1 syringe the day of the competition.
• *Maintenance:* 1 syringe per week

PACKAGING

50 g oral paste syringe

DESCRIPTION

The athlete horse is constantly under great physical and mental stress.
Maintaining the **balance between oxidants and antioxidants** is crucial for optimal physical condition necessary for high-level performance.

THE PRODUCT CONTAINS

• **ALFA LIPOIC ACID** (*antioxidant action*): it has the ability to regenerate other antioxidants and make them active again; it is hydro- and fat-soluble, so it can reach the whole body
• **MELOFEED®**: natural antioxidant complex rich in Superoxide Dismutase (SOD) enzyme.
The antioxidants contained in Melofeed have double encapsulation, which protects them from gastric acidity.
